LANDINGPAGE.FYI

A platform for discovering and showcasing landing page designs for inspiration and reference.

The screenshot shows the homepage of landingpage.fyi. On the left, there's a sidebar with a logo and a list of links: Home, Landing Page Checklist (which is checked), Structure Generator, Website Checklist, Tools, Components, Templates, Examples, and Posts. Below this is a "See All Builders" button. The main content area features a large heading "All you need to **build** Landing Pages" with a subtext "Build your best landing page with these hand-picked examples, tools and guides." A "Discover Landing Page Tools" button is below the heading. At the bottom of the main content area is a "Landing Page Builders" section with the subtext "Tools that make it easy to create websites and landing pages without writing any code." To the right of the main content is a "We value your privacy" sidebar with a cookie consent message and buttons for "Customize", "Reject All", and "Accept All".
